(41) Total 673:10 (45) Night time last 30 days 0:00

AIRCRAFT DAMAGE

DAMAGE				(49) LIST OF DAMAGED PARTS
(46) Aircraft <u>W</u> <u>5</u>				Aircraft completely destroyed by bombs and fire.
(47) Engine(s) <u>W</u> <u>5</u>				
(48) Propeller(s) <u>W</u> <u>5</u>				

(50) Weather at the time of accident CAVU EH

(51) Was the pilot flying on instruments at the time of accident No
(52) Cleared from Castelluccio Y169 (53) To Combat Y169 (54) Kind of clearance Combat

(55) Pilot's mission Combat Y169 05

(56) Nature of accident Aircraft settled back onto runway after takeoff hitting fuselage and pulled aircraft to earth resulting in crash off the end of the runway.

(57) Cause of accident Pilot error in use of poor technique in takeoff, premature retraction of landing gear aggravated the settling of aircraft back onto runway.

(58) No None

DESCRIPTION OF ACCIDENT

(Brief narrative of accident. Include statement of responsibility and recommendations for action to prevent repetition)

Takeoff proceeded in a normal manner until aircraft became airborne. Immediately after becoming airborne, the aircraft was pulled up in an abrupt angle, then followed an overcontrol of elevators resulting in the ship again striking the runway. Then again the aircraft was pulled into the air and at this time the retraction of the landing gear was begun. The aircraft again settled onto the runway dragging on the partially retracted landing gear and the underside of the fuselage. This slowed the aircraft to less than flying speed and pulled the ship back to the ground. Aircraft then slid off the end of the runway and came to rest, fire and explosion followed.

HEADQUARTERS
451ST BOMBARDMENT GROUP (H)
Office of the Operations Officer
APO 520 U. S. Army

31 July 1944

SUBJECT: Witness of Aircraft Accident.

TO : Whom it may concern.

I was Control Tower Officer on 22 July 1944 and at 0730 observed Aircraft No. 42-72580 take off on a Combat Mission. The aircraft appeared to rise off the runway in a normal manner, all engines appeared to be functioning properly. The aircraft climbed and the wheels were being retracted, the aircraft began apparently to settle or mush until it began to slide along the dirt strip beyond the runway, when suddenly it came to a stop beyond the hill at the end of the runway and burst into flames and exploded. The day was clear with very little wind and CAVU weather. The aircraft was fully loaded with 6,000# of bombs, 2700 gallons of gas and maximum ammunition aboard.
